BILLING CODE 3710-08-M

Rules, Security and Accessorial Services Governing the Movement of Department of Defense Freight Traffic by Barge Carrier

AGENCY: Military Traffic Management Command (MTMC), DOD.

ACTION: Notice.

SUMMARY: MTMC, for the Department of Defense, intends to modify the procedures used to acquire rates and charges from barge carriers. This modification is the issuance of a rules publication designed to standardize and simplify the procurement of rates and services to move military cargo via barge carriers. The publication, MTMC Freight Traffic Rules Publication No. 30 (MFTRP No. 30), will govern barge shipments between locations in the United States and to and from locations in Alaska and Canada. The draft publication may be obtained from the MTMC Home Page on the Internet at the following address: <http://baileys-mtmcwww.army.mil>. After the MTMC Home Page screen has loaded, access the "Functional Support" button on the screen. After the screen appears, access the "Global Traffic Management" button on the screen. Then under the "Freight Movements" section, access the "Freight Traffic Rules" button. Then access "MFTRP No. 30," and the draft publication will download for you to highlight and copy to any word processor to read and/or print. Written comments should reach Headquarters, MTMC, ATTN: MTOP-T-SR; Room 629; 5611 Columbia Pike, Falls Church, VA 22041-5050, not later than May 1, 1996.

FOR FURTHER INFORMATION CONTACT: Headquarters, Military Traffic Management Command, ATTN: MTOP-T-SR, 629 NASSIF Building, 5611 Columbia Pike, Falls Church, VA 22041-5050; or Mr. Julian Jolkovsky at telephone (703) 681-3440, or e-mail jolkovsj@baileys-emh5.army.mil.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

Availability of Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning A Dengue Virus Vaccine

AGENCY: U.S. Army Medical Research and Materiel Command, DOD.

ACTION: Notice.

SUMMARY: In accordance with 37 CFR 404.6, announcement is made of the availability of U.S. Patent Application Serial No. 08/423,338 entitled "Inactivated Dengue Virus Vaccine", and filed April 17, 1995, for licensing. This patent has been assigned to the United States Government as represented by the Secretary of the Army.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Staff Judge Advocate, Fort Detrick, Frederick, Maryland 21702-5012.

FOR FURTHER INFORMATION CONTACT: Mr. John F. Moran, Patent Attorney, (301) 619-2065 or telefax (301) 619-7714.

SUPPLEMENTARY INFORMATION: The invention describes an inactivated viral vaccine designed to immunize and protect against disease caused by dengue (DEN) viruses, including serotypes one, two, three, and four, i.e. DEN-1, DEN-2, DEN-3, and DEN-4; it also describes a process to produce the vaccine. The process consists of methods to replicate DEN viruses to high titer in a suitable cell substrate, to purify the viruses, and to inactivate them with formalin while maintaining their antigenicity and immunogenicity. The vaccine is designed for administration by subcutaneous, intramuscular, or other suitable routes with or without an adjuvant.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Diagnosis of, and a Vaccine Against, Dengue Virus

AGENCY: U.S. Army Medical Research and Materiel Command, DOD.

ACTION: Notice.

SUMMARY: In accordance with 37 CFR 404.6, announcement is made of the availability of U.S. Patent Application Serial No. 08/504,878 entitled "Recombinant Vaccine Against Dengue Virus", filed July 20, 1995, for licensing. This patent has been assigned to the United States Government as

represented by the Secretary of the Army.

ADDRESSES: Commander, U.S. Army Medical Research and Materiel Command, ATTN: Staff Judge Advocate, Fort Detrick, Frederick, Maryland 21702-5012.

FOR FURTHER INFORMATION CONTACT: Mr. John F. Moran, Patent Attorney, (301) 619-2065 or telefax (301) 619-7714.

SUPPLEMENTARY INFORMATION: The invention describes methods of production and purification of recombinant dengue virus envelope proteins for use as diagnostic reagents or as vaccines and, when combined, as a multivalent vaccine against all four dengue virus serotypes. Each recombinant envelope protein was expressed by baculovirus in insect cells and formed a particle which was purified. This purification process consists of sonication of cell lysates and differential centrifugations. Native antigenic and immunogenic properties are maintained in the purified product. The vaccine is designed for administration by subcutaneous, intramuscular or other suitable routes or without adjuvant.

Gregory D. Showalter,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-M

DEPARTMENT OF EDUCATION

[CFDA No.: 84.250]

Office of Special Education and Rehabilitative Services, Vocational Rehabilitation Service Projects for American Indians with Disabilities

ACTION: Withdrawal of notice inviting applications for new awards for fiscal year 1996.

SUMMARY: On August 10, 1995 the Secretary published in the Federal Register (60 FR 40956) a combined application notice (CAN) inviting applications for new awards for fiscal year (FY) 1996 under a number of the Department's direct grant and fellowship programs. Included in the CAN was a notice inviting applications for new awards under the Vocational Rehabilitation Service Projects for American Indians with Disabilities. The purpose of this notice is to withdraw the invitation for applications for new awards under the Vocational Rehabilitation Service Projects for American Indians with Disabilities.

SUPPLEMENTARY INFORMATION: The notice inviting applications for new awards was published prior to the publication
